

Application story

Injecting Monoethanolamine

Location	Russia	Hydra-Cell model	G35XKCTHFEHB
Type of application	Injecting Monoethanolamine	Flow rate	Up to 130 l/min (28 gallons/min)
Liquid	Monoethanolamine	Pressure	Up to 40 bar (580 psi)
Application details	The end user is the largest integrated petrochemicals company in Russia; they purchase hydrocarbons and processes them into plastics, rubbers and other high value added products to deliver state-of-the-art technological solutions. Two G35 replaced piston pumps in this installation for deep purification of light hydrocarbons.		
Advantages of Hydra-Cell pump on this application	Seal-less design for low maintenance and servicing
