

PARTS LIST

D15/G15, H25/G25, D35/G35 & D40/G40 OIL COOLER KIT

#103-175

ITEM	PART NUMBER	DESCRIPTION	QTY
1	A01-117-3400	12 Oz Oil Reservoir	1
2	103-153	Oil Cooler Adaptor	1
3	103-152	1/4 NPT X 3/8 Hose Barb	1
4	D12-116-2400	Label	1
5	103-119	3/8" X 8' Long Hose	1
6	100-124	Hose Clamp	4
7	103-012	3/8 Tee	1
8	103-014	3/8 NPT X 3/8 Hose Barb	1
9	103-013	3/8 Plug	1
10	100-648	Cable Tie	4
11	103-009	Loctite Pipe Sealant	1
12	A01-113-3400	Loctite Thread Sealant	1
13	D10-080-2110	O-ring	1
13	103-176	Parts list	1

Note

- This kit to be used with the 50 and 60 Hz Oil Coolers.
- This kit to be used with the D15/G15, H25/G25, D35/G35 and D40/G40 pump models.
- Hose bend radius must be 3" minimum when installed.

Procedure for filling system with lubricant

1. Assemble plumbing from "Oil Cooler Kit" to "Pump" as shown using thread sealant on all threads.
2. Fill "Pump Crankcase" and "Oil Reservoir Bottle" with lubricant.
3. Run "Oil Cooler" until lubricant is Low in "Oil Reservoir Bottle".
4. Add lubricant to "Oil Reservoir Bottle" as needed to retain proper level until the entire system is filled.
5. Do not operate "Pump" with low oil level.
