Quick STUDY

Hydra-Cell[®]
Seal-less Pumps

www.Hydra-Cell.com

Location:	United Kingdom
Application:	Boiler feed
Media:	• Hot Water
Model No.:	D10XKCTHFECB
Flow Rate:	7 gpm (29 l/min)
Pressure:	300 psi (20 bar)
Hydra-Cell Advantages:	• Ability to pump non-lubricating fluids • Ability to run with high inlet pressures to overcome pressure of hot water.

Boiler Feed Reliability

Hot water boiler feed. Replacement pump recently sold. The original pump was in service for 15 years.

Characteristics of Fluid Pumped:

☐ Contains Abrasives ☐ Corrosive ☐ Solids in Suspension ☒ High-temp. (>158°F/70°C) ☒ Non-lubricating ☐ High-viscosity (>500 cPs)
