

P Series Gearbox Reducer Conversion Kit Instructions

How to change from the previous reducers to current reducers manufactured after Serial #317930

When purchasing a new gearbox reducer for an assembly that used our old style reducer (units manufactured up to Serial #317930):

1. Select the desired gearbox reducer and input flange kit from the Hydra-Cell Metering Solutions (HCMS) price list. Normal discounts are applied to these items.
2. Locate the appropriate kit below. (NOTE: to receive the special pricing below, the conversion kit must be ordered with the new gearbox reducer and input flange kit. It cannot be purchased as a stand-alone kit.)

Model P200 with new gear reducer

Pricing for the new low-cost conversion kits is subject to our normal distributor discounts. It is also heavily discounted to encourage making the change from our old design to our new design for gearbox reducers.

Model	Conversion Kit Part Number	Description	Price	Gearbox & Input Flange Kit HCMS Price List	Reference Numbers
P100	112-908	Universal (No baseplate necessary; bolt holes are identical)	\$255.00	Page 31	5 & 6
P200	112-900	Carbon Steel Baseplate, NPT	\$345.00	Page 33	4 & 5
P200	112-901	SST Baseplate, NPT	\$370.00	Page 33	4 & 5
P200	112-906	Carbon Steel Baseplate (metric connecting shaft), BSPT	\$445.00	Page 33	4 & 5
P200	112-907	SST (metric connecting shaft), BSPT	\$470.00	Page 33	4 & 5
P300	112-902	Carbon Steel Baseplate, NPT or BSPT	\$545.00	Page 35	5 & 6
P300	112-903	SST Baseplate, NPT or BSPT	\$570.00	Page 35	5 & 6
P400	112-904	Carbon Steel Baseplate, NPT	\$300.00	Page 37	5 & 6
P400	112-905	Carbon Steel Baseplate, BSPT	\$325.00	Page 37	5 & 6
P500		No conversion kit is required; purchase new reducer only		Page 39	
P600	112-909	Universal: kit is for Size 63 (small) reducers only; Size 75 (large) reducers does not change	\$300.00	Page 41 (Part 1 of 3)	5 & 6
